Green Jazz was inspired by drummer Sheryl Mebane's environmental work and by Tangria's musical evolution. In *Songs from Lady Bird*, Tangria's first CD, the group crafted memorable soundscapes with jazz tunes from Sheryl's jazz novel *Lady Bird*. Reviewers called *Mebane's Eleven: Tunes for Two*, Tangria's sophomore CD of mostly originals, "fresh," "forward looking jazz..." "...with a lot of sparkle." With *Tangria Jazz Group*, the self-titled third CD that included Latin and African influences, reviewers wrote that Tangria "continues to impress." *Green Jazz* takes Tangria's artistic expression to a whole new level.
